

LUANNA VIRGINIA DE ANDRADE MELO

Limerick, Ireland | +353 0833902368 | luandrade.melo@gmail.com | [linkedin.com/in/luannavirginiamelos](https://www.linkedin.com/in/luannavirginiamelos)

PROFESSIONAL SUMMARY

Senior QA and Test Automation professional with 7+ years of experience across retail, financial, and insurance sectors, complemented by current hands-on experience in a GMP-regulated pharmaceutical manufacturing environment (Regeneron) supporting MES (PAS-X) documentation, data integrity (ALCOA+), and GxP-aligned operations. Proven track record leading QA teams (coordinated a nine-member team as Test Architect), defining automation strategy, and building automated test suites with Selenium WebDriver, Java, JUnit, and Cucumber/Gherkin, reducing exploratory testing execution time from 4 days to 3 hours. Strong foundation in Agile/Scrum delivery, CI/CD integration, defect management, and test planning, now combined with direct exposure to cleanroom manufacturing operations, GDP, and EHS compliance.

CORE COMPETENCIES

- MES / GxP Exposure - PAS-X, GDP, ALCOA+, Data Integrity
- Test Automation Strategy & Architecture
- CI/CD Pipeline Integration (Azure)
- Cross-Platform Testing (iOS, Android, Web)
- Defect Tracking & Root Cause Analysis
- Agile / Scrum Delivery
- QA Team Leadership & Mentoring
- Test Planning, Test Case Design & Regression Testing
- Selenium WebDriver, Java, JUnit, Cucumber/Gherkin (BDD)
- Cross-Functional & Cross-Border Team Collaboration

PROFESSIONAL EXPERIENCE

Service Technician | Manufacturing Support (SSE Group)

Aug 2025 – Present

Regeneron Pharmaceuticals | Ireland

- Perform logbook entries and support MES (PAS-X) documentation activities within a GMP-regulated manufacturing environment
- Ensure adherence to Good Documentation Practices (GDP) and data integrity principles (ALCOA+)
- Execute tasks in accordance with approved SOPs, maintaining strict adherence to controlled, validated procedures
- Complete required training (SOPs, CBTs, OJT) within defined timelines - Veeva systems
- Support manufacturing operations in classified cleanroom environments using MES (PAS-X)
- Maintain compliance with Environmental Health & Safety (EHS) and cGxP regulatory requirements

QA Analyst – Technical & Academic Projects

Feb 2022 – May 2025

Freelance / Griffith College Projects | Limerick, Ireland

- Applied QA methodology across academic and independent projects, owning planning, execution, documentation, and sprint-style delivery
- Developed and executed manual test cases for mobile, web, and IoT-based applications; designed regression strategy and edge-case scenarios
- QA testing for PDTracker (Java/Android/IoT), a Parkinson's symptom-monitoring app with fall detection — validated sensor data and alert logic, detecting 4 critical issues pre-launch
- Led end-to-end QA for Rise Together (Kotlin/Firebase), an emotional-support app for cancer recovery — accessibility, UX, and notification-flow testing reduced usability issues by 60% before final review
- Practiced test automation with Selenium, API testing with Postman, and defect tracking with Jira

Software Quality Assurance Analyst

May 2021 – Oct 2021

WarmUP Consulting | Brazil (remote)

- Contributed to the development and testing of a project for an insurance company
- Conducted manual testing to support the automation squad

- Developed a test automation plan and automated core system and website functionalities
- Evaluated and enhanced existing automated tests, identifying opportunities to improve reliability

Test Architect – Automation

Jan 2019 – Jul 2019

Grupo HDI | Brazil

- Coordinated and monitored QA activities for a nine-member team as Test Architect, owning automation strategy for an ecommerce retail platform
- Reduced manual regression execution effort from 4 days to 3 hours by deploying automated regression and exploratory testing
- Developed test automation estimates through scenario modelling, data preparation, and test condition management
- Built and maintained automated tests using Selenium WebDriver, Java, and JUnit; oversaw version control and documentation
- Analysed front- and back-office e-commerce issues, identifying optimisation opportunities and best practices

Senior Test Analyst

Nov 2017 – Jan 2019

Grupo HDI | Brazil

- Facilitated Scrum implementation and enhanced QA processes and best practices
- Planned and monitored testing activities, including test estimation and test condition development
- Accompanied manual and automated test runs; managed data preparation and test conditions
- Set delivery schedules and estimates; developed and monitored project status reporting
- Utilized Jira for defect tracking and test documentation

Business Analyst / Test Analyst II

May 2014 – Nov 2017

Banco PAN (contracted via Keeggo) | Brazil

- Gathered requirements and translated business needs into test scenarios, test cases, and test mass for banking and insurance projects (incl. Rabobank Dutch Agribusiness Bank)
- Developed coverage maps, flowcharts, and detailed test procedures; created and tracked test status reports
- Planned, scheduled, and monitored test execution and delivery activities using Scrum and Kanban
- Oversaw defect tracking, version control, and documentation using ALM/Quality Center, TestLink, Test Manager, Mantis, and TOTVS/Protheus
- Supported pre-sales activities, from budget estimation to commercial proposal development

Test Analyst

Jan 2013 – Feb 2014

Inmetrics | Brazil

- Prepared and executed system, black-box, functional, exploratory, and regression test cases for bank (Santander), insurance, and retail clients
- Opened and monitored defects; reported and documented test execution results
- Evaluated Data Flow Diagrams (DFD) to inform test coverage
- Used HP Quality Center, TestLink, SoapUI, Eclipse, and Service Center

EDUCATION

Bachelor of Science (BSc), Computer Science

Griffith College Limerick | 2022 – 2025

Bachelor of Technology (BTech), Systems Analysis and Development

Universidade Nove de Julho (UNINOVE) | São Paulo, Brazil | 2012 – 2014

CERTIFICATIONS & TRAINING

- ISTQB Certified Tester Foundation Level (CTFL) — ISTQB, 2021
- ISTQB Certified Tester Foundation Level – Agile Tester (CTFL-AT) — ISTQB, 2021
- Functional Tests with Selenium WebDriver: From Basics to GRID — Udemy, 2021
- Scrum Fundamentals Certified (SFC) — 2021
- Product Owner Essentials Training — Scrum.org, 2021

- Professional Scrum Product Owner I (PSPO I) — Scrum.org, 2021

TECHNICAL SKILLS

- MES / Regulated Environments: PAS-X MES documentation, Veeva, GxP, GDP, ALCOA+, cleanroom manufacturing support
- Test Automation & Frameworks: Selenium WebDriver, Selenium Grid
- Programming & Scripting: Java, JavaScript
- Test Frameworks & BDD: JUnit, Maven, Cucumber, Gherkin
- API Testing: Postman
- CI/CD, Infrastructure & Performance Testing: Azure
- Observability & Data: Firebase, SQL
- Test Management & Collaboration: Jira, TestLink, Git, BrowserStack
- AI & Agentic Tooling: Claude Code, GitHub Copilot, ChatGPT

LANGUAGES

- Portuguese: Native
- English: Professional Working Proficiency
- Spanish: Limited Working Proficiency
